

TRADE TECHNICAL GUIDE

Insulated Panels Trade Guide

What we publish for the trade, what each document is, and where to download it: data sheets, engineering, bushfire guidance and warranty.

QUICKBUILT SYSTEMS®

Edition October 2026

JOIN THE QUICK BUILT FAMILY

More work. Better prices. Less hassle.

01

Jobs sent your way

Homeowners design and price their patios, rooms and panel builds on our websites. When they want it built, we pass the job to a Quick Built trade partner near them. That's you.

They design it
online, with the price

We send it to you
with the design and details

You build it
on your trade price

02

Your trade price

Trade pricing on every order from the day you are approved.

03

A 30-day account

Up to a limit we agree with you, after a credit check.

04

Straight from the factory

Made in Silverdale NSW by the people you talk to on 1300 132 787.

05

One account, every range

Patio kits, roof and wall panels, acoustic fencing and modular homes.

06

The Quick Built app (coming soon)

Coming soon: your leads, orders, deliveries and invoices in one place.

07

Everything to quote and build

Engineering, span tables and compliance documents. This guide lists them all.

Apply in about ten minutes

quickbuiltsystems.com.au/trade-account →

Everything you need to quote and build.

15 documents, in three groups. Each page that follows says what a document is and when you need it, with a link to download it in full. They are free, and kept current on quickbuiltsystems.com.au.

01 Products 05

Insulspan roof panels, Panelspan structural insulated wall panels and Panelcore steel panels.

- Insulspan roof panel brochure
- Insulspan product data sheet
- Panelspan structural insulated wall panels
- Panelcore insulated steel panels

02 Engineering and compliance 06

Wind classification first, then our engineers' details, the Queensland Form 15, the span tables and the industry bushfire guidance.

- Wind classification guide
- Patio roof engineering details (22-1204-ST)
- Queensland Form 15 design certificate
- Patio cover beam span tables
- Alyspan beam span tables
- Bushfire guidance: insulated roof panels
- Bushfire guidance: insulated wall panels

03 Installation and warranty 07

Installation guides for attached and flyover Insulspan roofs, and the warranty with the site requirements that keep it valid.

- Installation guide: attached Insulspan roof
- Installation guide: flyover Insulspan roof
- 10-year limited warranty
- Storage, handling and installation requirements

Before you rely on them. Engineering and span tables are a guide for people skilled in this work: every site needs its own wind classification, and some need site-specific engineering. Our team can help with both on 1300 132 787.

AT A GLANCE

Key figures.

Copied exactly from the documents named. For anything outside these tables, use the full documents or call us.

Insulspan panel data

From the Insulspan product data sheet (Sep 2020). BAL 29. Early fire hazard indices: ignition 0, spread of flame 0, heat evolved 0, smoke developed 0–1.

CORE THICKNESS	50 MM	75 MM	100 MM	125 MM
R-value (m^2K/W)	1.39	2.09	2.78	3.48
Weight (kg/m^2)	8.8	9.1	9.3	9.5

Minimum roof slope 5° for the corrugated profile and 2° for Monoclad.

Insulspan roof panel spans (mm)

From Ross Engineers drawing 22-1204-ST (Mar 2024), Table 3, for open patios.

PANEL THICKNESS	N1 (W34)	N2 (W40)	N3 (W50)	N4 (W61)
50 mm	5100	5100	4000	—
75 mm	5700	5300	4000	3300
100 mm	5700	5300	4000	3300

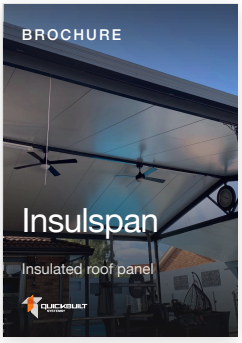

0.47 mm TCT Colorbond external sheet, SL-R EPS core, 0.4 mm TCT internal backing; adjacent building up to 4.8 m high. Over N4: call us.

01 Products

Insulspan roof panels, Panelspan structural insulated wall panels and Panelcore steel panels.

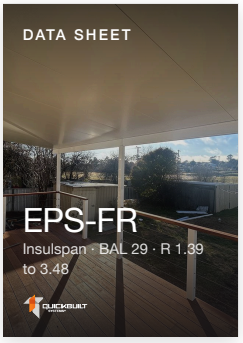

Insulspan roof panel brochure

The Insulspan insulated roof panel: a roof, insulation and finished ceiling in one panel, with its profiles and colours.

Issued Sep 2024 · 2 pages · 1.9 MB

Download PDF ↓

Insulspan product data sheet

Construction, core, bushfire rating and early fire hazard indices, with R-values and weights for each thickness.

Issued Sep 2020 · 2 pages · 354 KB

Download PDF ↓

Panelspan structural insulated wall panels

Panelspan structural insulated wall panels: profiles, thicknesses and where they are used.

Issued Nov 2016 · 2 pages · 572 KB

Download PDF ↓

Panelcore insulated steel panels

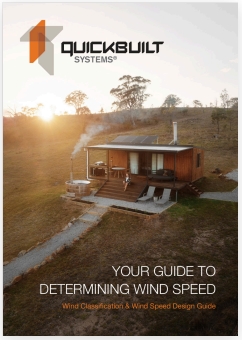

Panelcore insulated steel panels for architectural, commercial and industrial work, including partitions and enclosures.

Issued Jul 2026 · 2 pages · 1.4 MB

Download PDF ↓

02 Engineering and compliance

Wind classification first, then our engineers' details, the Queensland Form 15, the span tables and the industry bushfire guidance.

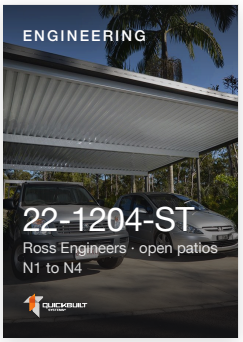

Wind classification guide

A step-by-step guide to a site's wind classification: region, terrain, shielding and topography. Do this before choosing members.

Issued Mar 2026 · 5 pages · 1.4 MB

Download PDF ↓

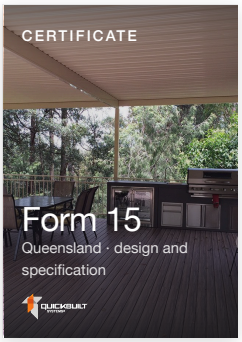

Patio roof engineering details (22-1204-ST)

Ross Engineers' details for open patios from N1 to N4: footing sizes, lintel beams and posts, Insulspan roof spans and rafter strengthening.

Issued Mar 2024 · 1 page · 132 KB

Download PDF ↓

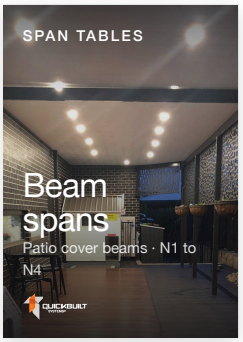

Queensland Form 15 design certificate

Ross Engineers' generic Queensland compliance certificate for roof sheeting, posts, brackets, beams and footings.

Issued Oct 2022 · 3 pages · 443 KB

Download PDF ↓

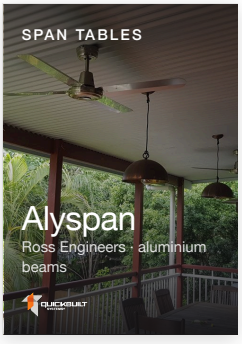

Patio cover beam span tables

Edge and central beam spans by roof projection for single and double beams, N1 to N4, plus point-load, walkway and gable truss tables.

Issued Jan 2025 · 11 pages · 10.2 MB

Download PDF ↓

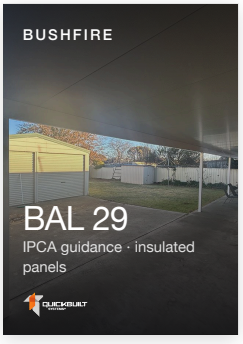

Alyspan beam span tables

Ross Engineers' span tables for Alyspan aluminium beams, with section properties and the design loads behind them.

Issued Aug 2014 · 18 pages · 1.3 MB

Download PDF ↓

Bushfire guidance: insulated roof and wall panels

Insulated Panel Council Australasia guidance on using insulated roof and wall panels in bushfire-prone areas.

Issued Jul 2014 · two letters, 3 pages each

Roof PDF ↓ Wall PDF ↓

03 Installation and warranty

Installation guides for attached and flyover Insulspan roofs, and the warranty with the site requirements that keep it valid.

Installation guide: attached Insulspan roof

Step-by-step installation of an attached Insulspan roof: tools, components, posts, beams, panels, flashings and gutter.

Issued May 2024 · 8 pages · 1.6 MB

Download PDF ↓

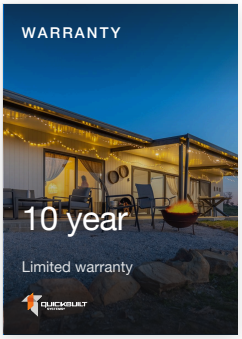

Installation guide: flyover Insulspan roof

Step-by-step installation of a flyover Insulspan roof raised above the existing roofline.

Issued Oct 2024 · 8 pages · 1.9 MB

Download PDF ↓

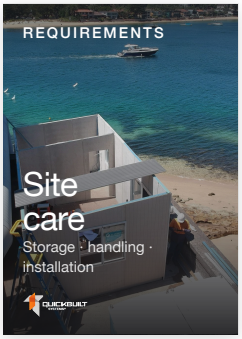

10-year limited warranty

Quick Built's 10-year limited warranty: what is covered, for how long, and how to claim.

Issued Feb 2026 · 3 pages · 144 KB

Download PDF ↓

Storage, handling and installation requirements

The storage, handling and installation requirements that keep the warranty valid on site.

Issued Feb 2026 · 14 pages · 410 KB

Download PDF ↓
